COMPANY PROFILE

Lustrarte was founded in 1974 and dedicated to the creation, production and marketing of products for decorative lighting, interior and exterior. Located in Marinha Grande in the center of Portugal.

The main raw material used in the manufacture of its products is the brass, a material that noble addition to its great flexibility of use and handling, offers us yet high rates of resistance and durability, and provides a wide range of finishes. All these characteristics provide adequate support to the commercial strategy adopted by the company, which focus on design and quality as critical factors of success of all its product lines. The firm bet on the quality of products is also evidenced by the various international certifications and approvals, ranging from the European CE to the American UL.

The company on the international scene, have a good positioning in projects of decorative lighting, professional and residential, which is the main reason for its share of exports already exceed 90% of total production. Among the main destination markets for their products stand out, in that order of magnitude, Russia, The United States, Ireland, Japan, the Baltic and Nordic nations and the Middle East, where through existing partnerships in each region, Lustrarte products are placed in various projects of restaurants, hotels and residences in coastal areas, inland and mountain, urban and rural areas.

In the past years we had been enquired from big contracting companies for their projects. That gives us already possibility to do Hotels like Royal Monceau by Philip Starck in Paris, Intercontinental in Manama Bahrain, Pestana Berlin Germany, Ramada Kiev Ukraine, Hilton Mecca (KSA), Shelbourne Historic Hotel and Bewley's Café in Dublin or Sky Niseko Resort in Japan among others.
