## COMPANY PROFILE

ViGIE by Innwave helps Health and Pharma organizations to improve control of critical assets, identify issues faster, optimize operations, reduce risk and eliminate losses. We focus on two main operational areas: Integrated, highly-secure continuous-monitoring applications; and enterprise Facility Maintenance Management.

With strong knowledge in Healthcare Facilities and Equipment Management, our team is dedicated in innovation, design development and delivery within our more than 300 customers, providing a flexible, user-friendly and completely customizable product that assures safety, compliance, efficiency and quality.

## PRODUCTS

ViGIE 3 is a health tech platform that simplifies healthcare facilities management ensuring patient & staff safety by leveraging the power of data through artificial intelligence.

## TRADEMARK

ViGIE®

## EXPORT MARKETS

United Kingdom, Denmark, Belgium, Italy, Spain, Angola, Dominican Republic, Cape Vert.
