COMPANY PROFILE

Founded in 1987, Dietmed has devoted all its attention and commitment to improving people's well-being and quality of life through natural therapeutic solutions.

Our work is guided at all times by high standards of Quality, Accuracy and Innovation. Therefore, we invest in highly qualified technical staff and continuous training programs in the most diverse areas of our business: R&D, Production, Marketing and Logistic.

Over the years, we have developed an extensive portfolio of high-quality products with an excellent value for money. We are an agile, versatile company capable of adapting to the needs of each of our partners. We enjoy working in a true sense of partnership, with a complete sharing of our know-how, assisting our partners in various areas, from technical aspects to marketing and communication strategies.
