COMPANY PROFILE

ACL – A Cimenteira do Louro is a leading Portuguese company specializing in concrete flooring and wall coverings. With over 50 years of experience, we are renowned for our technical expertise, cutting-edge designs, and high-quality, durable products. Our materials are trusted worldwide for their exceptional performance and aesthetic appeal in architectural projects.

We have played a pivotal role in some of Portugal's most significant infrastructure projects, including roads, public spaces, and facilities for commercial, educational, and sports purposes. Our flooring and wall coverings are integral to many iconic buildings. At ACL, we oversee every step of the production process, from raw material extraction to the final product, ensuring stringent quality control and outstanding technical properties.

Core Values and Objectives

At ACL, we are driven by a commitment to innovation, quality, and sustainability. Our mission is to develop concrete solutions that enhance the performance, visual appeal, and longevity of every project while maintaining environmental responsibility and safety throughout our operations.

Commitment to Sustainability

Environmental protection is a cornerstone of our business. Our key sustainability initiatives include:

Renewable Energy: In 2018, we installed 1,984 photovoltaic panels at our factory, greatly increasing our reliance on renewable energy.

Waste Management: We recycle 99.9% of our waste, and all water used in production is treated and reused.

Sustainable Products: Our concrete products are fully recyclable, helping to minimize environmental impact.

ACL is proud to be the first company in our sector in Portugal to achieve EN ISO 14001 certification, a testament to our dedication to sustainability.
