COMPANY PROFILE

ETMA, established in 1974, is the processing plant of Solubema located on the quarrying site itself. Provided with an up-to-date powerful and constantly evolving transformation capacity, this factory also works all kinds of limestones and marbles in standard dimension, cut to size or artistic jobs.

SOLUBEMA is the largest marble quarrying company of Portugal and one of the top ten european. Pioneering the marble mining since 1928, we extract from our own land the exclusive "Marbles of Vigaria" of unique gloss and alabaster-like transparency. With a monthly production of 600 cubic meters, a ready-to-deliver policy of high quality blocks and a unique range of background colours from icy white to ivory cream, peach to bright pink. We have capacity and organization to supply the most demanding architectural jobs in the briefest time.
