## COMPANY PROFILE

Colé is a Portuguese two-brother company, created in 2017 with the purpose to offer to everyone an healthier alternative to the established industrial ice cream options. Aiming to be the reference ice cream brand for those who practice and live a healthier and happier life, Colé is all those moments of adventure, happiness, summer, family, friends, and memories in just one bite. We want to bring freshness to everyone's life. Keep it fresh.

Our popsicles are produced with fresh fruit and nutritional rich ingredients, full of flavor. The flavours are created in a way to please from youngest to the eldest, from Portugal to the entire World. All our products are free from animal products and also gluten free, and we also have a line of sugar-free and free from artificial sweeteners and emulsifiers and additives.

Our mission is to produce with love, conquer with flavor and convince with quality. That is why in our core values, we privilege quality, trust and simplicity in everything we do.

In Portugal we account for more than 800 partners who sell our popsicles. We are now looking for new markets and opportunities.

## PRODUCTS

Our Vegan Popsicles are produced with fresh fruit. With no preservatives or coloring, they are also gluten free. They are mostly appreciated for their fruit flavor and texture.

## TRADEMARK

Colé

## EXPORT MARKETS

Looking to Export UAE, Asia.
