COMPANY PROFILE

Casa Mendes Gonçalves wants to be a reference for the future in the food industry, with profitability and a positive impact on our society. We have 40 years of experience in fermentation and 16 years of experience in emulsions. We produce over 1700 SKUs in our factory today, which are the result of the knowledge acquired in the thousands of projects we have undertaken, and the accumulated experience of making products: vinegar, sauces and condiments. Innovation is our watchword. We are permanently on the lookout for new global market trends, and our quest for innovation can lead to a new product, packaging or ways of doing business.
