COMPANY PROFILE

Ramirez is a model project of business longevity with 172 years of activity; it is the oldest fish canning industry in the world. In 2015, it focused its activity on the most modern and “green” industrial unit in the sector, “Ramirez 1853”, located in the North of Portugal. This is a state-of-the-art unit, both technically and technologically, which allows it to innovate in various areas and give a new boost to its historic export vocation. Ramirez’s reliability, certified by the most demanding international agencies and distribution chains, gives it the world. It exports more than 60 references to over 50 markets overseas.
