COMPANY PROFILE

Prochef is a Portuguese brand founded in 2001, deeply connected to the country's strong textile tradition. With a dedicated team of 25 employees, Prochef specializes in high-quality professional clothing for the culinary and hospitality industries. Known for durability, comfort, and contemporary design, the brand offers a wide range of garments, including expertly crafted knitted pieces.

We focus on using eco-friendly materials and handcraft each item with care. Our custom chef jackets and seasonal collections emphasize comfort, detail, and timely production. This quality-first approach, combined with emotional branding, has helped Prochef become one of the most recognized professional wear brands in Portugal.

Now, 23 years later, Prochef remains a family-owned business, with the founder's children actively involved. The company has two production units and ambitious plans for growth. Despite evolving, our mission remains the same: to deliver outstanding products and experiences while growing alongside our clients.

As we continue this journey, we aim to make a meaningful impact in the lives of those who wear our creations—each piece carrying a story of craftsmanship, care, and connection.

"One piece... one story." – Orquídea Silva
