COMPANY PROFILE

HCareSol develops solutions to excel in healthcare provision in three main areas:

- Geriatric
- Diagnostic and Treatment
- Physiotherapy and Rehabilitation

We care for our customers' needs, providing not only a quality product, but also a valuable after sales and technical Support. Our development team works daily to achieve new solutions with maximum attention to the main distinctive features of our products:

- Comfort of the users and healthcare professionals
- Design and functionality
- Quality and adequation of materials
- Fulfillment with quality and safety standards
- Ease of assembly and use

HCareSol is owned by Sinuta Group, a Portuguese Industrial Group with infinite opportunities due to a strong international nature, 30 years of experience and a track record in innovation, always looking for new and cutting-edge features and developments to add to our existing products.
